ultimatene mi succede spesso di riscontrare dei problemi di repo duplicati

W: Duplicate sources.list entry http://ppa.launchpad.net/pidgin-developers/ppa/ubuntu/maverick/main amd64 Packages (/var/lib/apt/lists/ppa.launchpad.net\_pidgin-developers\_ppa\_ubuntu\_dists\_maverick\_main\_binary-amd64\_Packages)

cancello il duplicato e poi si ripresenta :-(

come risolvo?
