
Subject: Errore inspiegabile con du e ls

Il file seguente da' luogo a un comportamento che mi sembra anomalo dei comandi du e ls, eccolo:

```
[video]dalet_$: du -h VTS_01_1.VOB
2,1M VTS_01_1.VOB
Invece e' un giga.
```

```
[video]dalet_$: du -h
845M .
Tutta la directory e' piu' di 6 giga, non 845 mega.
```

```
[video]dalet_$: ls -lh
totale 845M
-rw-r--r-- 1 dalet users 12K 12-giu-11 21:54 VIDEO_TS.BUP
-rw-r--r-- 1 dalet users 12K 12-giu-11 21:54 VIDEO_TS.IFO
-rw-r--r-- 1 dalet users 1,9M 12-giu-11 21:57 VIDEO_TS.VOB
-rw-r--r-- 1 dalet users 88K 12-giu-11 21:57 VTS_01_0.BUP
-rw-r--r-- 1 dalet users 88K 12-giu-11 21:57 VTS_01_0.IFO
-rw-r--r-- 1 dalet users 9,4M 12-giu-11 21:45 VTS_01_0.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 22:13 VTS_01_1.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 23:19 VTS_01_2.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 22:29 VTS_01_3.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 22:34 VTS_01_4.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 22:44 VTS_01_5.VOB
-rw-r--r-- 1 dalet users 1,0G 12-giu-11 23:19 VTS_01_6.VOB
-rw-r--r-- 1 dalet users 44M 12-giu-11 23:07 VTS_01_7.VOB
Anche qui il conto 845 mega e' lo stesso che riporta du, chissa'
cosa vuol dire.
```

```
[video]dalet_$: cat VTS_01_1.VOB > /tmp/pippo
```

```
[video]dalet_$: du -h /tmp/pippo
1,1G /tmp/pippo
Adesso invece funziona, perche?!
```

```
[video]dalet_$: ls -lh /tmp/pippo
-rw-r--r-- 1 dalet users 1,0G 14-giu-11 19:31 /tmp/pippo
```

```
[video]dalet_$: ls -lh /tmp/pippo
```

totale 1,1G
drwx----- 2 root root 16K 27-mag-11 22:56 lost+found
drwx----- 2 dalet users 4,0K 14-giu-11 13:58 mc-dalet
drwx----- 2 root root 4,0K 14-giu-11 19:22 mc-root
-rw-r--r-- 1 dalet users 1,0G 14-giu-11 19:31 pippo

Dunque in /tmp funzionano normalmente entrambi: du e ls, boh!
