Salve, sono un utente di Alice, ma succede anche ad un mio amico che mi ha appena chiamata e naviga con Tre, Google su alcuni siti risponde cos'Ã-:

We're sorry

.... but your query looks similar to automated requests from a computer virus or spyware application. To protect our users, we can't process your request right now.

We'll restore your access as quickly as possible, so try again soon. In the meantime, if you suspect that your computer or network has been infected, you might want to run a virus checker or spyware remover to make sure that your systems are free of viruses and other spurious software.

We apologize for the inconvenience, and hope we'll see you again on Google

Ma io non ne virus, ne spyware, cos' neanche chi mi ha chiamato, ho fatto ricerche ma non ci capisco nulla, qualcuno puo' aiutarmi???

Grazie per una cortese ed eventuale risposta.
